## Stop the Insanity!

### Our latest update as Calgarians take a stand on the Green Line

As you know, taxpayers could be on the hook for **\$8-\$10 billion for only Phase 1** of the Green Line (Eau Claire to Shepard). That's 2 times more for only 1/3 of the original plan! Small wonder it's being called "the line from nowhere to nowhere."

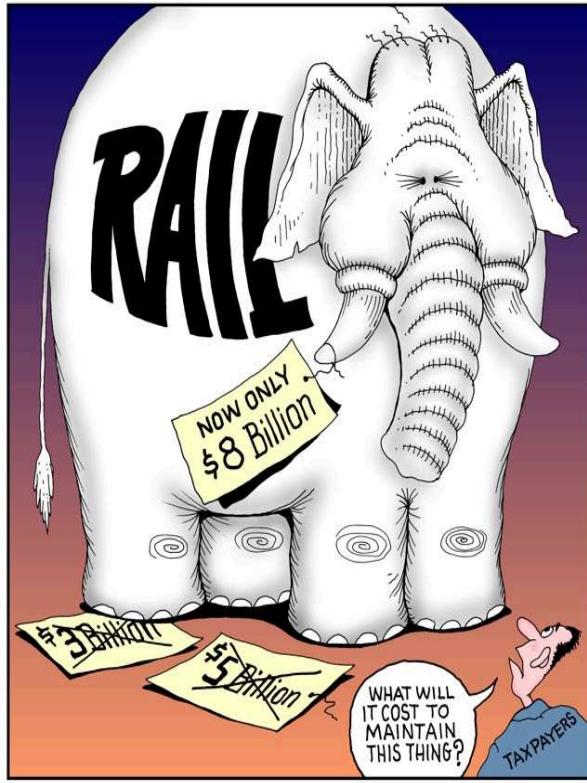

U of C's Trevor Tombe calculated the cost overrun of Phase 1 for taxpayers: a staggering 23% increase in property taxes! So, the average homeowner paying \$2,400 a year in property taxes will pay \$520 more each year for the next 20 years. If your property taxes are \$10,000 a year, you'll be paying \$2,200 more every year for the next 20 years. That's insane!

Jim Gray and Steve Allan are delivering this message to local groups. Steve's and Jim's slide presentations are on our [website](#) under the 'Resources' tab. If you'd like to hear Jim's remarks, here's the [video](#) link.

The media are increasingly writing about high-cost, high-risk transit projects across the country. Like us, they're astounded by the secrecy and lack of accountability of our governments – at all levels!

- [Governments keep pushing public transit Canadians don't want](#) | Financial Post
- [Canadians deserve more than smug silence when public projects go off the rails](#) | Globe and Mail
